### Top tips for measuring

*Please measure yourself in a relaxed state.*

Take your actual body measurements as they are more accurate than measuring over your clothes.

Chest: measure around the fullest part of your chest and across your shoulder blades.

Waist: measure around the natural waist, keeping the tape measure taut.

Hip: measure around the fullest part of your bottom.

Neck: measure around your 'adams apple'.

Wrist: measure above your wrist carpal bones (the ones that stick out!)
