A range of all-purpose watersports separates, designed to be worn either singularly or combined to form versatile two piece wetsuits. All garments are completely windproof, waterproof, fast drying, tough and breathable. They offer anti-sting, anti-abrasion and UV protection and are latex free for allergy sufferers. They can be worn as base layers, or for extra warmth as a thermal booster layer underneath a wetsuit, semi driesuit or cag. Fully waterproof, taped external seams give maximum strength and comfort. Lightweight, machine washable and fast drying, this range is great for taking travelling. Each item can pack up small enough to fit into your pocket.

COLOUR: BLACK
